Allowable Subject Matter

1. Claims 1-12 and 16-18 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant has argued that the Schmidt references fail to teach a method of applying a layer of polymerization starters and exposing them. While the reference clearly teaches a method of applying a photoresist to a substrate and exposing it to UV radiation through a mask then using the resultant pattern to etch underlying layers/ substrate, after reconsidering the teachings of the reference, the examiner noted that the azomono-chlorosilane polymerization starter was applied was to the vertical walls of the trench formed by the patterned resist rather than coated on the resist then exposed. Therefore, the rejections of record have been withdrawn and the instant claims are now allowable over the closest prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda C. Walke whose telephone number is 571-272-1337. The examiner can normally be reached on M-R 5:30-4.
